Quality • Service • Partnership

Mission Statement

It is the policy of Pennsylvania Machine Works to consistently improve customer satisfaction; and earn a reputation for providing world class quality products and services, produced and delivered in a safe, timely, and efficient manner.

Since the first Penn Forged Pipe Fitting was produced in 1931, the global piping industry has undergone dynamic growth. New materials, more severe operating environments, and entirely new concepts in process design have required increasing flexibility on the part of piping component manufacturers.

At the same time, quality and value added services have become a manufacturer's hallmark. The petrochemical, power generation, nuclear, cryogenic, shipbuilding, paper mill, and related industries have demanded continuously improved standards of excellence as well as partnering opportunities to expand their core systems to better serve their customers.

The focus of Penn Machine has been to continuously improve in meeting the needs of our most demanding customers. In pursuing our improvement goals, all of Penn Machine's forged stainless steel products are electropolished. Electropolishing removes the free iron from the product's surface and exposes the more corrosion resistant layer of Chromium, allowing the product to withstand some of the most corrosive environments. All stainless steel and alloy steel products are 100 percent Positive Material Identified (PMI) to assure that our end users receive the correct material grade 100 percent of the time. This inspection is supplied as part of our standard process to prevent a catastrophic accident in the field.

Penn Machine believes that value added services are needed to improve cost reduction activities in our supply chain. We offer product training, NAFTA forms, Canadian CRN numbers, facility directions, online order tracking, and manufacturer's test reports directly on our website at www.pennusa.com.

Penn Machine's custom labeling of boxed quantity products enables customers to ship our products from their inventory with their own name, logo, and address. We can even provide labels with the customer's part number and UPC bar code to help scan and inventory products faster, thus reducing our customer's receiving process costs.

We guarantee that Penn Forged Pipe Fittings will be the industry benchmark. The complete line of Penn Forged carbon, stainless, alloy, and nonferrous pipe fittings described in this catalog are manufactured for those piping applications where quality cannot be compromised. We invite your most demanding specifications and look forward to supplying you a world class quality product with value added features that stay with our product long after it is shipped from any of our facilities.

Socket Weld 90° Elbow

Specification: ASME B16.11

Material: Available in a complete range of Carbon Steels, Stainless Steels, Alloy Steels and Non-ferrous metals certified to ASTM, ASME, and Military standards.

Sizes: 1/8" - 4" in Class 3000 & 6000 • 1/8" - 3-1/2" in Class 9000
Also available in CL 10,000 and reducing pipe sizes and tube sizes

Threaded Street Elbow

Specification: ASME B16.11

Material: Available in a complete range of Carbon Steels, Stainless Steels, Alloy Steels and Non-ferrous metals certified to ASTM, ASME, and Military standards.

Sizes: 1/8" - 2" in CL 3000 • 1/8" - 1-1/2" in CL 6000

Also available in reducing pipe sizes

Threads: American National Standard Taper Pipe Threads
NPT (ANSI/ASME B1.20.1-1983)

Also available in other thread forms: NPTF, NPSC, NPSM, NGT, SAE, BSPT, BSPP and in any combination.

Left hand threads available upon request.

Butt Weld Tee

Specification: Dimensions per ASME B16.9
Weld bevels per ASME B16.25

Material: Available in a complete range of Carbon Steels, Stainless Steels, Alloy Steels and Non-ferrous metals certified to ASTM, ASME, and Military standards.

Sizes: 1/2" – 4" in all Schedules

Also available in reducing sizes starting at 1/8" and in other requirements such as special wall thickness

All butt weld tees have been proof tested according to B16.9

Butt Weld Ends Details

Weld bevels for wall thickness below 0.880"

Weld bevels for wall thickness above 0.880"

Threaded Cross

Specification: ASME B16.11

Material: Available in a complete range of Carbon Steels, Stainless Steels, Alloy Steels and Non-ferrous metals certified to ASTM, ASME, and Military standards.

Sizes: 1/8" - 4" in CL 2000 and CL 3000 • 1/8" - 3-1/2" in CL 6000
Also available in CL 9000 and CL 10,000 and in reducing pipe sizes

Threads: American National Standard Taper Pipe Threads
NPT (ANSI/ASME B1.20.1-1983)

Also available in other thread forms: NPTF, NPSC, NPSM, NGT, SAE, BSPT, BSPP and in any combination.
Left hand threads available upon request.

Socket Weld x Threaded Coupling

Material: Available in a complete range of Carbon Steels, Stainless Steels, Alloy Steels and Non-ferrous metals certified to ASTM, ASME, and Military standards.

Sizes: 1/4" - 6" in CL 3000 • 1/4" - 6" in CL 6000 • 1/4" - 4" in CL 9000
Also available in tube sizes, special pipe schedules/class rating, orifice holes, and special lengths

Threads: American National Standard Taper Pipe Threads
NPT (ANSI/ASME B1.20.1-1983)

Also available in other thread forms: NPTF, NPSC, NPSM, NGT, SAE, BSPT, BSPP and in any combination.
Left hand threads available upon request.

Threaded Half Coupling

Specification: ASME B16.11 for Class 3000 and 6000 only

Material: Available in a complete range of Carbon Steels, Stainless Steels, Alloy Steels and Non-ferrous metals certified to ASTM, ASME, and Military standards.

Sizes: 1/8" - 12" in CL 3000 and 1/8" - 8" in CL 6000
Also available in 1/8" - 8" in 150 # and 1/8" - 4" in CL 9000
And in special lengths

Threads: American National Standard Taper Pipe Threads
NPT (ANSI/ASME B1.20.1-1983)

Also available in other thread forms: NPTF, NPSC, NPSM, NGT, SAE, BSPT, BSPP and in any combination.
Left hand threads available upon request.

Threaded Reducer

Specification: ASME B16.11 for Class 3000 and 6000 only

Material: Available in a complete range of Carbon Steels, Stainless Steels, Alloy Steels and Non-ferrous metals certified to ASTM, ASME, and Military standards.

Sizes: 1/4" - 12" in CL 3000 and 1/4" - 8" in CL 6000

Also available in 1/4" - 4" in CL 9000

Threads: American National Standard Taper Pipe Threads
NPT (ANSI/ASME B1.20.1-1983)

Also available in other thread forms: NPTF, NPSC, NPSM, NGT, SAE, BSPT, BSPP and in any combination.

Left hand threads available upon request.

Socket Weld x Threaded Reducer

Specification: ASME B16.11 for Class 3000 and 6000 only

Material: Available in a complete range of Carbon Steels, Stainless Steels, Alloy Steels and Non-ferrous metals certified to ASTM, ASME, and Military standards.

Sizes: 1/4" - 12" in CL 3000 • 1/4" - 6" in CL 6000 • 1/4" - 4" in CL 9000
Also available in tube sizes, special pipe schedules/class rating, and special lengths

Threads: American National Standard Taper Pipe Threads
NPT (ANSI/ASME B1.20.1-1983)

Also available in other thread forms: NPTF, NPSC, NPSM, NGT, SAE, BSPT, BSPP and in any combination.
Left hand threads available upon request.

Threaded Eccentric Reducer

Specification: ASME B16.11

Material: Available in a complete range of Carbon Steels, Stainless Steels, Alloy Steels and Non-ferrous metals certified to ASTM, ASME, and Military standards.

Sizes: 1/4" - 12" in CL 3000 and 1/4" - 8" in CL 6000

Also available in 1/4" - 4" in CL 9000

Threads: American National Standard Taper Pipe Threads
NPT (ANSI/ASME B1.20.1-1983)

Also available in other thread forms: NPTF, NPSC, NPSM, NGT, SAE, BSPT, BSPP and in any combination.
Left hand threads available upon request.

Butt Weld Eccentric Reducer

Specification: Dimensions per ASME B16.9
Weld levels per ASME B16.25

Material: Available in a complete range of Carbon Steels, Stainless Steels, Alloy Steels and Non-ferrous metals certified to ASTM, ASME, and Military standards.

Sizes: 1/4" - 8" in S40/STD, S80/XH, S160 & XXH
Also available in special pipe schedules and split schedules

Socket Weld Cap

Specification: ASME B16.11

Material: Available in a complete range of Carbon Steels, Stainless Steels, Alloy Steels and Non-ferrous metals certified to ASTM, ASME, and Military standards.

Sizes: 1/8" - 12" in CL 3000 • 1/8" - 6" in CL 6000 • 1/8" - 4" in CL 9000
Also available in tube sizes, special pipe schedules/class rating, orifice holes, and special lengths

Round Head Plug

Specification: ASME B16.11 for 1/8" - 4" only

Material: Available in a complete range of Carbon Steels, Stainless Steels, Alloy Steels and Non-ferrous metals certified to ASTM, ASME, and Military standards.

Sizes: 1/8" - 8"

Also available as Bull Plugs as per MSS-SP95 and in special lengths

Threads: American National Standard Taper Pipe Threads
NPT (ANSI/ASME B1.20.1-1983)

Also available in other thread forms: NPTF, NPSC, NPSM, BSPT, BSPP

Butt Weld Union

Specification: Weld bevels per ASME B16.25

Material: Available in a complete range of Carbon Steels, Stainless Steels, Alloy Steels and Non-ferrous metals certified to ASTM, ASME, and Military standards.

Sizes: 1/8" – 4" in all Schedules

Also available in reducing sizes starting at 1/4" and in other requirements such as special wall thickness

Butt Weld Ends Details

Weld bevels for wall thickness below 0.880"

Weld bevels for wall thickness above 0.880"

Socket Weld Orifice Union

Material: Available in a complete range of Carbon Steels, Stainless Steels, Alloy Steels and Non-ferrous metals certified to ASTM, ASME, and Military standards.

Orifice Plate: CL 3000 available as tabbed or un-tabbed.
CL 6000 available as un-tabbed only.
Orifice hole per customer request.

See our flow rate chart for orifice union hole sizes

Sizes: 1/8" - 3" in CL 3000 • 1/8" - 2-1/2" in CL 6000

Also available in reducing pipe sizes and tube sizes

Socket Weld Di - Electric Union

Specification: O-Ring groove per AS 568 B

Material: Available in a complete range of Carbon Steels, Stainless Steels, Alloy Steels and Non-ferrous metals certified to ASTM, ASME, and Military standards.

O-Ring Material: Available in Buna, Viton, or Teflon. Durometer hardness corresponds to pressure class.

Insulator: Two pieces of canvas based phenolic shaped to prevent flow of electric charge, thus eliminating galvanic corrosion.

Sizes: 1/8" - 3" in CL 3000 • 1/8" - 2-1/2" in CL 6000
Also available in reducing pipe sizes and tube sizes

Pipe Nipple

Specification: ASTM A733

Threaded ends per ASME B1.20.1 • Beveled ends per ASME B16.25

Material: Available in a complete range of Carbon Steels, Stainless Steels, Alloy Steels and Non-ferrous metals certified to ASTM, ASME, and Military standards.

Sizes: 1/4" - 8" in S40/STD, S80/XH, S160 & XXH

Also available in special pipe schedules and custom lengths.
Lengths which are shorter than Close length are not recommended for pressure application.

Concentric Swage Nipple

Specification: MSS SP-95

Threaded ends per ASME B1.20.1 • Beveled ends per ASME B16.25

Material: Available in a complete range of Carbon Steels, Stainless Steels, Alloy Steels and Non-ferrous metals certified to ASTM, ASME, and Military standards.

Sizes: 1/4" - 8" in S40/STD, S80/XH, S160 & XXH

Also available in special pipe schedules and split schedules

Socket Weld Couplet

Specification: ASME B16.11 & ASME 31.1

Material: Available in a complete range of Carbon Steels, Stainless Steels, Alloy Steels and Non-ferrous metals certified to ASTM, ASME, and Military standards.

Sizes: 1/4" - 4" in CL 3000 • 1/8" - 4" in CL 6000

Also available in special pipe schedules/class rating, and special lengths

Stub End

Specification: Dimensions per ASME B16.9 and MSS-SP43
Weld bevels per ASME B16.25

Material: Available in a complete range of Carbon Steels, Stainless Steels, Alloy Steels and Non-ferrous metals certified to ASTM, ASME, and Military standards.

Sizes: 1/2" – 24" in all Schedules

*Type 1/Type 2 or Short/Long must be specified by the customer
C dimension is equal to the schedule wall thickness

Butt Weld Ends Details

Weld bevels for wall thickness below 0.880"

Weld bevels for wall thickness above 0.880"

Exotic Alloy Flange

Specification: ASME B16.5
Also available in API 6A

Material: Available in all Alloy Steels and Non-ferrous metals certified to ASTM, ASME, and Military standards.

Sizes: 1/2" – 24" in CL 150, 300, 400, 600, 900, 1500
and 1/2" – 12 in CL 2500
also available in reducing pipe sizes.

Available as raised face or ring type joint (RTJ).
Flange facing can be smooth, serrated concentric, or serrated spiral.

Elbow Outlet

Specification: ASME B31.1

Also in ASME B31.3, ASME B31.8, and ASME BPVC Sec I & Sec VIII Div 2

Threaded ends per ASME B1.20.1 • Beveled ends per ASME B16.25

Socket Weld ends per B16.11

Material: Available in a complete range of Carbon Steels, Stainless Steels, Alloy Steels and Non-ferrous metals certified to ASTM, ASME, and Military standards.

Sizes: 1/4" – 36" in all Schedules • 1/4" – 4" in Class 3000 & Class 6000
Also available in other requirements such as pressure and temperature specifics and special header, branch wall thickness.

Elbow Outlets suited for short elbow radii & 3D elbows are available upon request.

Nipple Outlet

Specification: ASME B31.1

Also in ASME B31.3, ASME B31.8, and ASME BPVC Sec I & Sec VIII Div 2
Threaded ends per ASME B1.20.1 • Beveled ends per ASME B16.25

Material: Available in a complete range of Carbon Steels, Stainless Steels, Alloy Steels and Non-ferrous metals certified to ASTM, ASME, and Military standards.

Sizes: 1/2" – 6" in all Schedules

Also available in other requirements such as pressure and temperature specifics and special header, branch wall thickness.

Available in standard lengths and **in any length the customer desires**

An insert welded outlet is a type of integrally reinforced branch connection used to facilitate radiography, one of many non-destructive tests (NDT) used to inspect welds. This type of NDT uses Gamma or X-rays to penetrate material. The rays are then passed through film on the opposite side. The exposed film is examined as a negative and displays the internal features. The thickness of the weld is shown through lighter or darker areas on the film.

Sweep Outlet

Specification: ASME B31.3

- Smooth Transition
- Less labor

Run Consolidations for Outlets

What does Consolidation mean in the Piping Industry?

Consolidations are the merging of run pipes, which the outlet sits upon. The contour of the outlet will have a certain radius which is in between the largest and smallest radius of the run pipe consolidation. Therefore, the outlet will not sit precisely on any of the pipes within the consolidation. This is acceptable, as long as the gap distance between the top of the run pipe and the bottom of the outlet, at the center or the end, does not exceed 1/16" as per MSS-SP97 (see image on left).

Why are Consolidations good for you?

Creating outlets to sit on a number of different pipe sizes rather than one specific size is beneficial to you for a few reasons. It gives a single, versatile product that simplifies your purchase as well as inventory when the project demands a variety of pipe sizes.

Are you unfamiliar with piping terminology?

Terms and Conditions of Sale

1. ACCEPTANCE OF ORDER: All Orders are subject to Pennsylvania Machine Works, LLC (Seller) credit department approval prior to acceptance by Pennsylvania Machine Works, LLC. No terms or conditions of Purchaser's order contrary to Seller's terms and conditions shall be binding upon the Seller. Seller's offer shall automatically terminate thirty (30) days after date of offer, unless accepted prior to that date. No assignment of Purchaser's rights may be made without the prior, written consent of the Seller.

2. PRICES: All quoted prices and other terms of sale and payment, are subject to change by the Seller without prior notice and, unless otherwise stipulated by the Seller, are understood to be FOB Seller's factory, and Purchaser shall thereupon assume all risks of loss. All prices are exclusive of sales, use, privilege, excise, or other taxes or custom duties. Stenographic or clerical errors are subject to correction.

3. PAYMENT TERMS: All accounts are payable in U.S. funds, free of exchange, collection, or any other charges. No deductions may be made from invoice without prior approval of the Seller. Payment not received within thirty (30) days shall bear interest at the rate of 1-1/2% per month until paid. If, in the sole discretion of Seller, the financial condition of the Purchaser at any time so requires, Seller retains the right to require full or partial payment in advance. Unless otherwise specifically noted, the amount of any federal, state or local sales, use, occupancy, excise tax, or other tax of any nature, for which Seller is legally liable, either intentionally or through failure of payment by Purchaser, shall be added or be in addition to the price quoted and Purchaser agrees to pay the same to Seller.

4. SPECIALS/DRAWINGS: If an item is not shown on the price list, it is considered to be a "special" and is subject to quotation. If a "special" requires a drawing, said drawing must be approved, in writing, by Purchaser before fabrication begins. Any changes in drawings must have the prior approval of Seller. In the event of cancellation, Seller shall be compensated for material and labor already expended. When Seller manufactures a product according to customer supplied drawings, that Purchaser, at its expense, shall indemnify, defend and hold harmless against all claims or losses that arise from any suit that alleges that the Seller infringed the rights Purchaser or any third party. Seller's only express warranty is that the product will conform to Purchaser's specifications, subject to reasonable tolerances.

5. CANCELLATIONS AND SUSPENSIONS: Purchaser may cancel this order or contract, or delay work or delivery, only upon receipt of written notification by Seller and with Seller's prior consent, and upon agreement to pay Seller's adjustment charge. Orders for "special" products (usually "price on application items") may be changed and/or cancelled only upon receipt of written instructions by Seller and with Seller's prior consent and Purchaser shall make payment to Seller for material used or acquired and work already performed.

6. DELIVERY: Delivery or shipment date specified is Seller's best estimate and Seller shall not be liable for any incidental, special, indirect, or consequential damages due to delay in deliveries resulting from any cause. Claims for shortages must be made in writing within ten days after receipt of shipment. All damaged UPS/FedEx boxes must be retained to file a claim. Materials slated to be in stock are subject to prior sales. Seller reserves the right to make partial shipments from time to time, and to render invoices therefore, which shall be due and payable as provided in said invoices and the paragraph entitled "Payment Terms". If the Purchaser becomes overdue in any such partial payment, Seller shall be entitled to suspend work and/or avail itself other legal remedies.

7. RETURN OF MATERIALS: Only unused standard list items normally stocked may be returned, and only with prior written authorization number from Seller. Such returns shall be within a reasonable time not exceeding one year from date of sale of product. Any goods returned are subject to inspection and a handling charge plus freight in both directions and charges for any reconditioning, unless otherwise specified in writing by Seller.

8. PRODUCT WARRANTY/LIABILITY: Seller warrants products manufactured by the Seller to be free of defects in material and workmanship, under normal use and proper operation, for a period of one (1) year from date of the shipment from Seller's factory. Products and components purchased from other manufacturers are warranted only to the extent of the manufacturer's warranty to the Seller. SELLER MAKES NO WARRANTY OF ANY KIND WHATSOEVER, EXPRESS OR IMPLIED OTHER THAN AS SPECIFICALLY STATED HEREIN, AND THERE ARE NO WARRANTIES OF MERCHANTABILITY AND/OR FITNESS FOR A PARTICULAR PURPOSE WHICH EXCEED THE OBLIGATIONS AND WARRANTIES SPECIFICALLY STATED HEREIN. This warranty does not apply if the failure is due to any cause other than a manufacturing defect, or if the product was modified or changed without prior written

approval from the Seller. Claims by Purchaser due to product failure are limited exclusively to the right of replacement of such defective product, or repayment of the sale price. In no case shall Seller be liable to the Purchaser or any third party for any direct, indirect, special, incidental, punitive, consequential, or special damages. The foregoing warranty shall not apply: (1) to any use of a Product in aircraft or aerospace applications (Prohibited Application), (2) if a Product was not used as recommended and in accordance with approved installation and operating practices, (3) if the failure of a Product results from any cause other than a manufacturing defect, including by not limited to damage due to corrosive, abrasive, or other wear normally to be expected in the use of the Product, (4) if the Product was modified or changed (unless written approval was given in advance by Seller, and (5) if Purchaser fails to deliver written notice of such defect to Seller during the Warranty Period.

9. EXCLUSIONS: Do not use Sellers Products in aircraft or aerospace applications. Purchaser assumes all risk of loss that arise from or relate to any use of Product in a Prohibited Application, and Purchaser shall, at its expense, indemnify, defend and hold Seller harmless against all claims or losses (including legal and accounting fees) that arise from or relate to the use of any Product in a Prohibited Application.

10. WAIVER OF RIGHTS: The failure of Seller to exercise any of the above rights under this agreement for a breach shall not to be deemed to be a waiver of such rights or future rights.

11. GOVERNING LAW/CONSENT TO JURISDICTION: This contract shall be construed in accordance with, and governed by, the laws of the Commonwealth of Pennsylvania without regard to the conflict-of-law doctrines of any jurisdiction. Purchaser agrees that any action or proceeding against it may be commenced, at Seller's sole option, in any county in the Commonwealth, in state or federal court, or submitted to binding arbitration under the rules of the American Arbitration Association. Purchaser waives personal service of process and agrees that a summons and complaint commencing an action in any court shall be properly served, if served by registered or certified mail to Purchaser's address as reflected in the books or record of Seller.

12. DIES, TOOLS AND PATTERNS: Dies, tools and patterns used by Seller to produce any Product (collectively, the "Material") shall be and remain the exclusive property of Seller. Payment by Purchaser of any preparation charge with respect to such Material shall not give Purchaser any right, title or interest in or to such Material. Seller shall not be responsible for retention of dies or patterns on which no orders are received for two years or more.

13. PURCHASER'S REMEDIES: Purchaser's remedies with respect to any Product furnished by Seller hereunder that is found not to be in conformity with the terms and conditions of the contract because of breach of contract, breach of express or implied warranty, negligence shall be limited exclusively to the right of replacement of such defective Product or, at the option of Seller, repayment of the sale price for the particular Product that gives rise to the claim. Seller shall have no liability to Purchaser or to any other person, in tort, contract or otherwise, for claims, losses, damages or injuries arising out of this purchase or use of any Product, except for the return by Seller of an amount not in excess of the payments made by Purchaser to Seller for the particular Products giving rise to Purchaser's claim. IN NO EVENT SHALL COMPANY BE LIABLE TO PURCHASER OR ANY THIRD PARTY FOR ANY CONSEQUENTIAL OR SPECIAL DAMAGES FOR LOSS OF GOOD WILL, WORK STOPPAGE, LOSS OF WORK PRODUCT, OR ANY AND ALL OTHER COMMERCIAL DAMAGES OR LOSSES, DIRECT OR INDIRECT, EVEN IF SELLER HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES OR LOSSES.

14. OTHER: This Agreement, together with these Terms and Conditions, constitute the entire understanding between the parties with respect to the subject matter hereof and supersede any and all prior understandings, statements, warranties, representations, and agreements, oral and writer, relating hereto. Neither party shall be liable to the other under this Agreement if delayed or prevented from performance by causes beyond its control including, but not limited to, fires, floods, strikes, acts of God, war, insurrection, governmental restrictions, or other causes of a like or different nature. No change, alteration, modification, or addition to this Agreement shall be effective unless in writing and properly executed by the parties hereto. The contract shall be subject to the terms and conditions contained or referred to in Seller's Price Schedule, quotation or order acknowledgments and in no others whatsoever. In the event of any discrepancy or inconsistency between the Terms and Conditions and any other purchase order or acceptance form used by Purchaser in connection herewith, the terms of this Agreement shall govern, and such purchase order or acceptance form shall not amend, modify or add to the terms of this Agreement.
